# Where Georgia Leads:

Information Security

Cybercrime is a constantly evolving threat to business, with criminals using fast-evolving and increasingly sophisticated methods to attack critical information. Corporations in most every vertical, from Banks to Healthcare to Telecom, are having to enlist experts with the expertise to keep up with the threats.

Georgia is home to some of the world's most impressive Information Security companies and a strong Information Security cluster, which includes industry giants such as IBM, Verizon Business, and Dell SecureWorks.

The Technology Association of Georgia estimates Georgia to be third in the nation in the Information Security cluster, based on overall industry revenue.

Georgia is home to more than 115 Information Security companies

Georgia ranks third in the nation for Information Security with Georgia InfoSec companies generating more than $4.7 billion in annual revenue

Georgia is ranked among the Top 10 states with the most "Centers of Academic Excellence" for Information Security

Georgia has more than 10,000 network and computer system engineers

About Technology Association of Georgia

TAG's mission is to educate, promote, influence, and unite Georgia's technology community to foster an innovative and connected marketplace that stimulates and enhances Georgia's tech-based economy. The association provides members with access to networking and educational programs; recognizes and promotes Georgia's technology leaders and companies; and advocates for legislative action that enhances the state's economic climate for technology.

The mission of TAG Information Security is to provide a leadership forum focused on education and open collaboration of today's information security, privacy, risk management and compliance related issues. The society is a resource for business and technology professionals interested or actively working in the field of information security in the public and private sectors.

For more information, please visit TAG at www.TAGonline.org, and TAG Information Security at www.tagonline.org/chapters-and-societies/information-security/.

TAG serves as an umbrella organization for 33 societies including:

TAG Business Process Management
